

### Our Mission:

The mission of the organisation is to assist disadvantaged schools and communities by providing academic, social and environmental support and equipping children with skills for lifelong learning. We recognise each child as unique and special and aim to support the holistic development of the child.

### Our vision:

Empowered youth with a positive vision for their own future and the future of our country.

### Our Programme:

“3 R’s programme: **R**eading. **R**unning. **R**ighting.”

The “3 R’s programme is based on a philosophy of holistic development and a belief in ‘Healthy Body, Healthy Mind’.

### Why **R**eading?

“ Education will remain a key challenge as we build the people we need to build our economy and successful communities” – Head of Education, Mr. Ron Swartz.

We appreciate the importance of being a role player in providing an educational service within the farming communities. We acknowledge the challenges faced by the current education system and aim to provide immediate and direct relief for the children with whom we work.

### Why **R**unning?

Sports and Fitness in general has the following direct impact:

- Awareness and commitment to healthy and active life style
- Greater self worth through accomplishments of personal sports achievements (everyone a winner)
- Helps develop anti-drug attitude
- Constructive use of leisure time
- Improved levels of concentration, control and discipline = impact on school learning results
- Development of teamwork and group cohesion
- Potential future interest/career in sports

### Why **R**ighting?

The idea of right living refers to right life style, right choices, right attitude, right behaviour: ‘**right me**’. Hereby all children raised through the programme will truly be worthy ambassadors for their community and their country.

### What else does the Anna Foundation offer?:

- **Riding!:** 54 bikes rotating between farm projects + a development cycling team racing in local events!
- **School scholarship programme:** 8 farm children sponsored to attend Stellenbosch Primary and Bloemhof high school. Afternoon support provided plus transport and a driver!
- **Play2Pro:** Career development and skills training for teenage learners from the farming communities!

We aim to inspire greatness and ignite passion within every child with whom we work: greatness in who they are and what they want to achieve, and passion in how they plan to achieve their goals. Our programmes are about building self worth, self responsibility and future goals. We aim to have a very real and long lasting impact in these children's lives. To realise this aim we believe in quality holistic intervention. We recognise each child as part of a greater community and aim to empower each child to become influential citizens of South African society. We welcome you to be a part of making this difference to these deserving children.
